

Telephone Privacy Action Alert

Comments re: proceeding 02-278

--I request that the FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections.

--Indiana's Telephone Privacy law has improved my time at home with my family. These calls were typically placed during meal-time. I am a single mother with three small children and a full-time job. Telephone solicitation calls are an unnecessary and unwelcome interruption during the few hours I spend with my family in the privacy of my home.

--Indiana's law has been very effective. I used to receive multiple calls per week, now I occasionally receive one.
